### CHEREBER COMMUNITY RUN - 2026

**Date:** Monday, 6th April 2026

**Venue:** Chereber Primary School.

**Time:** Starting at 9:00 a.m.

#### About Chereber CBO

Chereber Community-Based Organization (CBO) was established in 2025 by professionals from the Chereber community with the goal of empowering residents through transformative and sustainable development initiatives. The organization is registered with the County Government of Uasin Gishu and operates within Kesses Constituency, Tarakwa Ward.

Guided by its mission to uplift the community through quality education, sustainable livelihoods, environmental conservation, improved health, and holistic wellness, Chereber CBO envisions a society where healthy people thrive in harmony with a protected and restored environment. Its initiatives are anchored on key pillars, including Education Support, Sports Development, Agriculture, Environmental Conservation, Community Health and Wellness, and Spiritual Formation.

#### Event Overview

Chereber CBO warmly invites you to the 2026 Chereber Community Run, an annual community-centered event that unites participants of all ages, professions, and backgrounds.

The event will commence with a tree-planting exercise, supporting our environmental conservation pillar and contributing to reforestation and climate resilience efforts. A target of 10,000 trees (both exotic and indigenous) has been set for this year's event.

The inaugural run was held successfully in February 2025, and this year's edition builds on that momentum, reinforcing a growing tradition of sports excellence and environmental stewardship in Chereber.

#### Why This Event Matters

The Chereber Community Run supports multiple development goals within the community:

- **Youth Talent Development:** Through the Sports Development Pillar, the event promotes discipline, resilience, and athletic excellence.
- **Environmental Stewardship:** Tree planting supports ecosystem restoration and climate action.
- **Community Unity:** Individuals of all ages, including elders, persons with disabilities, parents, professionals, and students, come together under one shared purpose.
- **Health & Wellness:** The run promotes physical fitness, mental well-being, and overall healthy living. Participants will also benefit from free health check-ups provided by partnering hospitals and qualified health professionals, including optical examinations, general health assessments, and guided counselling services to support emotional and mental wellness.

### Event Line-Up

The events and race categories will be as follows:

1. Tree planting exercise with a target of 10,000 trees
2. Registration of participants (starting at 8.00 am)
3. Race categories:
